KILLS NEGRO VOIE.

The Digges bill for the disfranchisement of the negro in all state and municipal elections in Maryland was passed by the House Saturday following its passage by the Senate Friday. It will now go to the governor for his signature. The law will give the democrats supreme control in Maryland. It will be fought in the courts.

It is not proposed to attempt to prevent negroes voting at congressional or presidential elections, the restriction applying only to state and municipal balloting.

The original draft of the plan was amended by the insertion of a clause by which negroes owning property assessed at \$500 may vote provided they were possessed of property thus valued two years in advance of their registration. It is proposed to repeal the present registration law; to have a new general registration next year, refusing registration to negroes and to abolish spring elections in Baltimore, carrying forward those elections until the state election in the November following. Registration being refused, the negro will not be able to vote on the measures when they come before the electors in November, 1911, in the form of a constitutional amendment.

The democrats did not insert the property qualification in the registration bill because, they say, they will conduct the election under the state constitution from which they point out the word "white" has never been expunged by any act of the state.
